

Results database guide

The key to entering accurate results is having a scoreboard that balances properly. The batting and bowling totals should agree and your scoreboard should be identical to the opposition scoreboard.

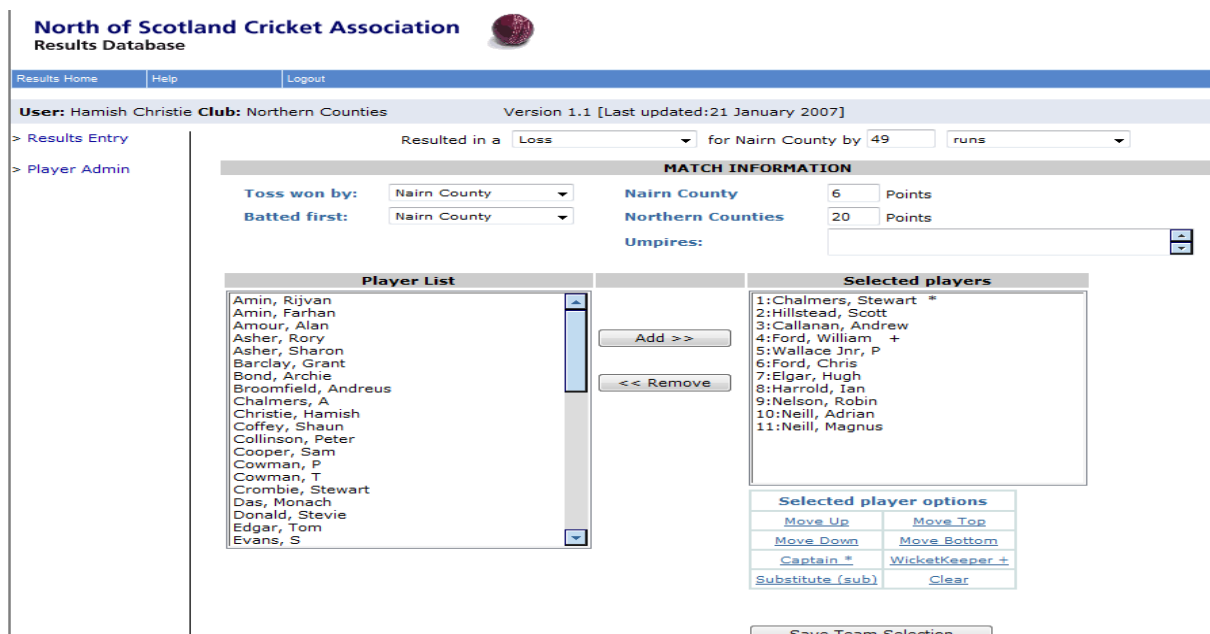

To enter results, follow the link from www.nosca.net entitled 'Fixtures/Results'. A new window will appear and prompt you to select your club – this will customise the site to your club. After you have selected your club and proceeded to the main page, select the 'Administration' option from the menu. You will be prompted to enter your username and password that was supplied to you by the results administrator. Having successfully passed security, your name and club will be displayed under the menu. If these details are incorrect, you should contact the administrator to have them changed.

Select 'Results Entry' from the lefthand side menu

On the left, there is a menu with '> Results Entry' and '> Player Admin'. The main content area has a heading 'ENTER MATCH RESULTS' and a form with three dropdown menus: 'SEASON' (2008), 'GRADE' (Senior League), and 'ROUND' (7). There is a 'Go' button next to the 'ROUND' dropdown.

Once you have save the player, close the window. In the selection screen, rightclick anywhere in the white area and select 'Refresh'. When the selection screen has reloaded, you will be able to add the new player to the selected players list. Having completed your list, click on 'Save Team Selection' and then 'Save & Continue'.

Please do not add any players that are transferring from other clubs!!! All transfers need to be notified to the Executive and the Administrator. The Administrator will then change the club that the player is associated with. This is to avoid duplicates and maintain the integrity of the player history.

The detail of the result is entered in the above screen. If the opposition have already entered their side of the result, you will be able to select the fielders and/or bowlers involved in the dismissal of your team. Don't forget to enter your teams bowling figures and fielding stats. The extras are the ones that the opposition gave you, not the ones that your bowlers gave away. All the extras fields must be filled in, so if there were no penalty runs, then put a zero in the box. Once complete, select 'Save & Continue'.

The next screen allows you to view the match result just entered, enter opposition dismissals or write a match review. If the opposition has not entered their side of the result, you will not be able to enter the opposition dismissals. If the opposition has entered their side of the result, then you must enter the opposition dismissals.
